

MLCOE DESIGN TASK

Recruitment Assignment & Technical Assessment

UI/UX DESIGNER TASK

Project: MindSpace – Mental Wellness Companion for Students

Objective

Design a safe, calming, and intuitive digital experience that helps students manage stress, track their emotional well-being, and build healthy habits. The platform should encourage engagement while maintaining accessibility, empathy, and trust.

Suggested Screens

1. Home Dashboard

- Personalized greeting
- Mood check-in
- Daily wellness activities
- Progress overview
- Emergency support shortcut

2. Mood Journal & AI Companion

- Daily journal entry
- Emotion tracker
- AI-generated reflections or coping suggestions
- Voice or text input options

3. Wellness Hub

- Guided breathing exercises
- Meditation sessions
- Focus timer
- Sleep and hydration reminders
- Habit tracker

4. Insights & Progress

- Weekly mood trends
- Habit consistency
- Wellness score
- Personalized recommendations
- Achievement milestones

Deliverables

- High-fidelity designs (Figma, Adobe XD, or Sketch)
- Interactive prototype (optional but encouraged)
- Brief design explanation (200 words): rationale for layout, color palette, accessibility, and user flow
- Optional: Annotated wireframes or user journey

Evaluation Criteria

- Empathy-driven user experience
- Visual aesthetics and consistency
- Accessibility and inclusive design
- Information hierarchy
- Creativity and originality
- Practical handling of sensitive scenarios (privacy, crisis support, empty states)

GRAPHIC DESIGNER TASK

Project: AI Ethics Awareness Campaign

Objective

Create a compelling awareness campaign poster that encourages responsible and ethical use of Artificial Intelligence. The design should educate, inspire discussion, and communicate complex ideas in a visually engaging manner.

Requirements

The poster should include:

- Campaign Title (e.g., "AI with Responsibility")
- Tagline (e.g., "Innovation Needs Integrity.")
- Key themes:
 - Privacy & Data Protection
 - Fairness & Bias
 - Transparency
 - Human Oversight
 - Responsible Innovation
- Call-to-Action
- QR Code / Website placeholder
- Organizer: Machine Learning Centre of Excellence (MLCoE)

Deliverables

- Final poster in PDF and PNG formats (A3 or A4)
- Source file (Canva, PSD, AI, or Figma)
- Brief concept note (150 words): explain your visual approach, typography, color theory, and symbolism

Evaluation Criteria

- Visual impact
- Clarity of message
- Creativity and originality
- Typography and composition
- Effective use of color and imagery
- Relevance to AI ethics

Assessment Guidelines

- All work must be original.
- Submit your designs before the specified deadline.
- Be prepared to explain your design process and decisions.
- For any queries, contact the MLCoE team through the official communication channels.

Note: Both tracks (UI/UX Designer and Graphic Designer) are evaluated independently. Candidates should attempt the task relevant to the role they are applying for, unless instructed otherwise by the MLCoE team.
